

SOUTH RUNWAY MAINTENANCE – 4 July to 1 August 2014

As part of the Airport Authority's comprehensive multi-year runway maintenance program, the south runway will be closed nightly from July 4 to August 1 between 9:00 p.m. and 7:00 a.m. During this time, the north runway, which is typically closed between 10:00 p.m. and 7:00 a.m., will be used for take-offs and arrivals.

Runway maintenance cannot be completed during the day due to the level of aircraft activity requiring use of the south runway. Runway maintenance is essential to ensure the continued safe operation of aircraft at YVR. Major work this year includes pavement line painting, runway rubber removal, edge erosion control, culvert cleaning, and catch basin clearing.

It is our goal to have the work completed as soon as possible. If the project work is completed prior to 1 August 2014, normal operations will resume with the usual nightly closure of the north runway.

We recognize that some communities may be disturbed by the changes to runway usage but these are necessary to ensure we meet the highest standards of safety and efficiency. We appreciate your support as we continue to prioritize safety and security. For more information on summer runway operations, email noise@yvr.ca or phone 604.207.7097.

If you would like more information, please contact the YVR Noise Management at noise@yvr.ca.
