About the Annual Sustainability Report

Every year, YVR reports on our financial health and operations – as part of our Ground Lease. And we take this opportunity to disclose our Economic, Environmental, Social and Governance (EESG) performance data, which is reflective of our commitment to transparency, and providing our community with clear, concise and reliable information.

We know attention to EESG data has gained momentum amongst financial institutions and investors. And we use the report for communications purposes – to share back with our many audiences all the great work and progress YVR has made in service of our community and the economy that supports it.

Our ASR is produced annually, is posted to YVR.ca, shared with our community, and used throughout the year for YVR's communications purposes. View past ASR documents here: [2023 Annual and Sustainability Report | YVR](#).
