Environment Checklist

General

(ENV2)

All FAP applications that involve any construction activity outside of an existing building are required to complete the following questions about the potential environmental effects of the construction and operation of the project.

Project Name: _____

Contact Name and phone number: _____

Note: The following questions refer to both the construction and operating phase of the proposed project. If additional space is required please attach additional sheets and indicate "see attached"

1. Will the project have any surface water discharges (e.g., dewatering):	Yes	No
2. Will the project result in the removal or alteration of existing vegetation? If yes, please explain:	Yes	No
3. Are you aware of any potential for soil or groundwater contamination at the site for previous land use? If yes, please explain:	Yes	No
4. Have underground or aboveground storage tanks ever been used at the site:	Yes	No
5. Will the project involve the excavation of soils? If yes, give approximate volumes and explain where the soil will be disposed of.	Yes	No
6. Will the project involve the importing, exporting, stockpiling, or placement of any fill (e.g., preloading, fill)? If yes, give approximate volume:	Yes	No
7. Will fuels, oils and/or lubricants be used, stored or handled at the site? If yes, what will be the approximate volumes of each:	Yes	No
8. Has an erosion and sediment control plan been prepared for the project (required for civil projects over 3,000 m ²)?	Yes	No
9. Has an Emergency and Spill Response Plan been prepared for the facility?	Yes	No
